

MOTORCYCLE EXHAUST SYSTEM CATALOG

www.devil-evo.com

Whether it's a year next after next... another hundred of thousand of festivals,
another hundred of thousand of special days,
Devil Evolution will always continue developing our products.
We believed that perfection has no finishing line.
Devil Evolution is not just a product but it's the responsibility.
After-sales service and customer care are our main keys.
Devil Evolution is not just an exhaust system. It is like a part of life on two wheels form.
You are not just a customer. We are not just a merchant. Instead, we are friends.
And that makes you an owner of Devil Evolution just like us.
Let's enjoy riding together forever.

MATERIAL

Size

D1, D2, D3, D4 and D5, it will have to choice of the appropriate size inner tubes of each type.
Size ranges from 45 mm., 48 mm., 51 mm. or even the size of the horn shape from small to large.
Such D2 represents 48 mm. and D2.1 has the 51 mm.

Material

D1, D2, D3, D4 and D5 We have choice of material to choose from.
The Standard is a stainless steel titanium surface,
Carbon and Titanium code

C = Carbon

T = Titanium and No code letter is meant to stand steel surface titanium. Except in D5 we have

M = Micron Stainless lightweight stainless steel and special.

MUFFLER

D1.1 TITANIUM (SUPER FLAT)

D1 is the first muffler we start the Devil evolution in Asia. This muffler is carried traditional water drop shape, the portion of the pipe is made of stainless steel bottom at affective the sound to have peaked resonate at higher frequencies

1.889 kg	Weight
51 mm.	Inlet pipe
45/51 mm.	Inner tube

* By request

D1.1C DRY CARBON (SUPER FLAT)

1.889 kg	Weight
51 mm.	Inlet pipe
45/51 mm.	Inner tube

* By request

D2.1 TITANIUM SURFACE (CHEEKBONE BOTTOM)

D2 is the almost identical with D1 but look over yonder ass pipe protruding out as just a cup characteristics affect the sound in a low frequency resonance.

1.880 kg	Weight
51 mm.	Inlet pipe
45/51 mm.	Inner tube

D2.1C DRY CARBON (CHEEKBONE BOTTOM)

1.756 kg	Weight
51 mm.	Inlet pipe
45/51 mm.	Inner tube

MUFFLER

D2.1 TITANIUM SURFACE (CHEEKBONE BOTTOM)

0.000 kg	Weight
60.5 mm.	Inlet pipe
00/00 mm.	Inner tube

D3 SUPER RED STAINLESS STEEL

D3 Originally developed for racing school. The durability of cooked but still a major characteristic traditional Devil's look "drops of water" shape. All unit is made of stainless steel. It's strong resistant to the damage in the event of an accident.

1.541 kg	Weight
51 mm.	Inlet pipe
45/51 mm.	Inner tube

MUFFLER

D4 COMPACT DRY CARBON (CHEEKBONE BOTTOM)

D4 is develop and design direct from D1 and D2 The body length was shortened to only 200 mm, not just shorten but the D1, D2, is the design of the entrance of the exhaust. also used as an insert (Insert type) form a distinct solid, compact casing which makes D4 is gaining popularity rapidly and opened its rst sales in Japan at the end of 2014. New star is born since then.

1.343 kg	Weight
51 mm.	Inlet pipe
00/00 mm.	Inner tube

D5M MICRON STAINLESS STEEL

0.932 kg	Weight
45-51 mm.	Inlet pipe
00/00 mm.	Inner tube

D5C CARBON

D5 is GP traditional style, but still contemporary philosophy Devil. The design of the inlet is insert type. This available in 3 differences material to choose Micro stainless, Dry Carbon and Titanium

0.898 kg	Weight
45-51 mm.	Inlet pipe
00/00 mm.	Inner tube
